PROJECT REVIEW : MILESTONE PROJECT – 1

Date: DD-MM-YYYY

PROJECT TITLE

SDG: SDG No – SDG Title(Example: SDG 4 – Quality Education)

Presented By:

STUDENT NAME – VTUxxxxxx – Reg.No.

Courses Handling Faculty:

Dr./Mr./Mrs. Name - Designation

INTRODUCTION

1

- Maximum 8 Lines –
- Background of the problem
- Why this project is important
- Real-world relevance
- Brief overview of the system

2

3

4

5

6

7

8

9

PROBLEM STATEMENT

- Maximum 8 Lines –
- Clearly define the problem

(**Example Statement: ***Only for reference***** (Have to change with respect to your project title):
In many areas, existing systems are not fully automated and rely on manual work. This leads to inefficiency in managing data and completing tasks. There is a need for a simple, reliable, and automated system to improve performance and accuracy.)

OBJECTIVE(S)

- Maximum 2 Points –

(Sample start point for writing objective are given below)

- To design and develop _____
- To implement _____
- To improve _____
- To evaluate performance of _____

(Keep objectives short and measurable)

1

2

3

8

9

PROPOSED SYSTEM

- Maximum 8 Points –

- Description of your solution
- How it solves existing issues
- Advantages over current systems

1

2

3

4

5

6

7

8

9

PROPOSED SYSTEM ARCHITECTURE

- (Insert block diagram) -

- Explain:

- Input
- Processing
- Database
- Output

1

MODULE DESCRIPTION

1

----- Example for reference only ----- (Change according to your project)

2

Module 1: User Management

Handles user registration, login, and profile management with secure authentication.

3

Module 2: Core Processing

Implements the main business logic and processes user inputs efficiently.

4

5

Module 3: Database Management

Manages data storage, retrieval, and ensures data integrity.

6

7

Module 4: Reporting & Analytics

Generates reports and visual insights for better decision-making.

8

9

IMPLEMENTATION SCREENSHOTS

- (Add screenshots of:
- Home page
- Login page
- Main module
- Output page)

Explain each in 1–2 lines.
